

AN ALTERNATIVE ECONOMICS CONFERENCE
organised by Friends of Le Monde Diplomatique

It's broke – let's fix it!

finding solutions to poverty, conflict and climate change

Saturday, June 16th, 2007

11 am to 5 pm. Registration from 10.30 am
Imperial College, Mechanical Engineering Building, Concourse Level 2,
Exhibition Rd, London SW7 2AZ

The global economy is failing to deliver either to the people of the developing, or the developed world, and at the same time is propelling us towards catastrophic and irreversible climate change. But there are alternatives to this inequitable and unsustainable system – and if civil society can be mobilised to call for a fundamental shift in economic thought and policy making, these objectives can be realised. Our panel of four keynote speakers will outline the challenge before us, and suggest the ways in which it can be overcome. There will be questions from the floor after each presentation, and the event will close with a plenary discussion.

Chair - Ann Pettifor

Director of Advocacy International and Campaigns Director, Operation Noah
